

Our Action Items

Criteria (How do we ensure that the inquiry is rigorous?)	Actions (What are we going to do?)
The group will read and use current research and thinking on the topic.	
The group will access and use multiple perspectives on the topic.	
The group members will identify and use pertinent new learning in their own practice.	
The group members will collect and share evidence of applied learning (student work for classroom teachers, teacher work for those working with adults).	
The group will use various types of data over the course of the study.	

Planning for Action

Criteria (How do we ensure that the inquiry is rigorous?)	Actions (What are we going to do?)
The group will use protocols to guide discussion, data analysis, and sharing.	
The group will document its learning and practice over time.	
Individuals and the group will regularly reflect on learning, application of learning, and group processes.
